Objective

To leverage my expertise in Deep learning and artificial intelligence to develop innovative solutions that improve buisness operations.

Education

- Pursuing B.Tech in 6th sem in CSE specialization of AI from GHRCE,Nagpur.

- Accomplished HSC in the year 2020-2021 from Shantai Science Junior College,Yerad

- Attained SSC in the year 2018-2019 from School of Scholars, Yavatmal

Technical Qualification

- Proficient in Python, having completed a comprehensive course through Coursera.

Technical Skills

- Python,Machine learning,Computer vision
- Database management systems like MySQL, MongoDB, and PostgreSQL
- HTML, CSS

Experience

- **Byte Uprise**   Mar 28 2024 - Present
  Web Development Intern

Projects

- **Youtube Transcript Analyazer**
  Built a Youtube Transcript Analyazer using Streamlit in a group of 5
- **Personality Prediction System**
  Built a Personality Prediction System through CV in a group of 5
- **Object Detection and Recognition using Convolutional Neural Networks (CNNs).**
  Built a model using YOLO algorithm and CNN to detect object, demonstrating computer vision techniques to identify and classify objects accurately in real time.

Soft Skills

- **Communication Skills, Problem Solving, Leadership. -**
